- One-step products

Filter Aids & pH Adjust. Prod.

- Sil-Kleer & DE
- CBOD Filter Aid
- pH Adjust & Sludge Cond.
- Caustic & Sulfuric Acid

Tech Service Work

Product Description

Clean Tank HP is a high performance granular cleaner designed to remove buildup of dry and gelatinized solids from storage tanks and lines, while killing bacteria that hide out in system elbows, tanks, and low lines. In laboratory testing, CTHP dissolved 92% of gelled, air-dried and in-line starch/resin.

Product features

- Odorless!
- Easy to use
- Reduces cleaning time
- Concentrated: use just 2 pounds per 50 gallons of water
- Phosphate free
- Available in 100-pound drums
- Ideal for Zero Discharge facilities
- No special disposal requirements
- No enclosed space permit required

Reduces cleaning time

Clean Tank HP reduces cleaning time from a full day to only 2 to 3 hours. Just add Clean Tank HP to lukewarm water (do not exceed 110^o F), circulate for 45 minutes to 2 hours depending on severity of tanks and lines, and rinse with clean water. (See product procedure sheet for more details.)

Never run out of product again

Your area representative will monitor your product usage and call to remind you to do an inventory check so you always have enough product on hand.
