### Product description

Green is our carefully formulated preservative made from the pulp of unripened berries. It protects slurries from bacterial contamination.

### Product features

- Custom bagging for your batch size
- Batch-size pricing lowers per-batch cost
- Hands-off material in water-soluble bags
- Available in granular or liquid form
- Formaldehyde free
- Bags are weighed to within one gram

### Product rotation

We will automatically rotate your preservative order through our suite of preservatives (JT-1, JT-20, and Green) to prevent the possibility of bacteria becoming resistant to any one product. We keep track for you!

**Important:** Read and follow carefully all directions supplied by Walla Walla Environmental, Inc. Walla Walla Environmental, Inc., warrants that this material is reasonably fit for the purposes stated in our literature when used in accordance with our written and verbal directions. Under no circumstances shall Walla Walla Environmental, Inc., be liable for incidental consequential or other damages from alleged negligence, breach of warranty, strict liability or any other theory arising out of the use or handling of this product. Neither this warranty nor any other warranty of merchant or fitness of purpose, neither expresses or implied, extends to the use of this material contrary to our directions, or under conditions not reasonably foreseeable by Walla Walla Environmental, Inc.
